

# Solar Power Camp Light

Written By: Niklas Kauhanen

## TOOLS:

- [Hot Glue gun & hot glue \(1\)](#)
- [Soldering iron \(1\)](#)

## PARTS:

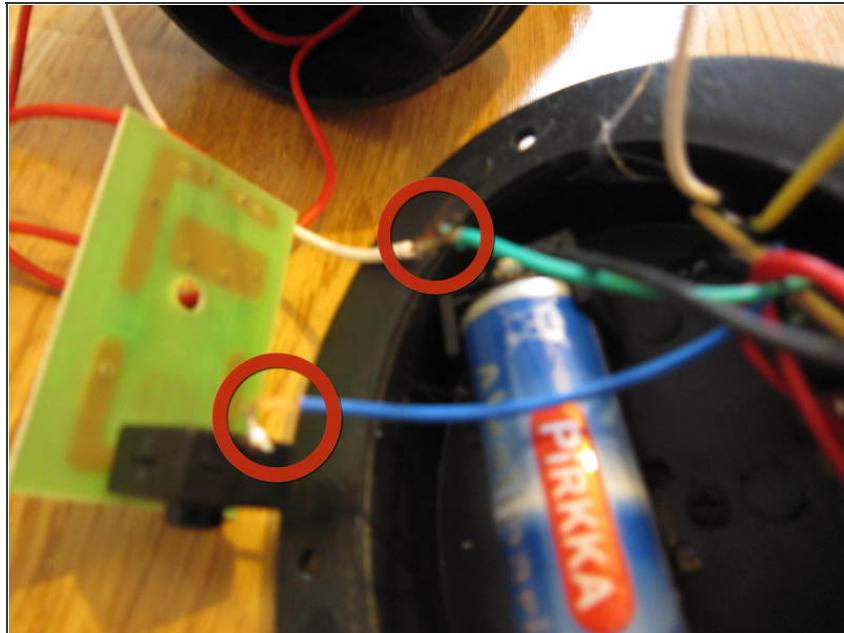

- [Camp light \(1\)](#)
- [Solar power lamp \(1\)](#)

## Step 1 — Solar Power Camp Light

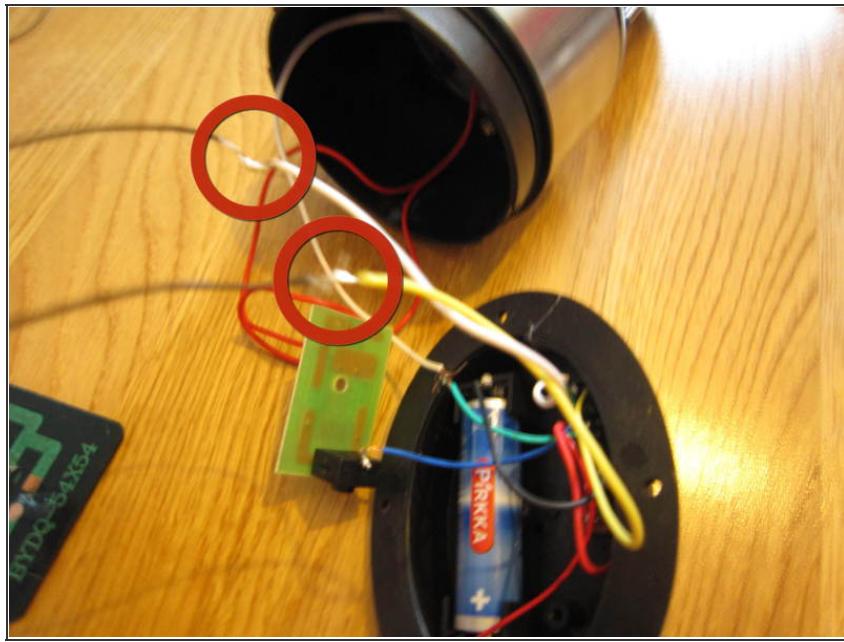

- First remove the solar panel from the lamp.

## Step 2

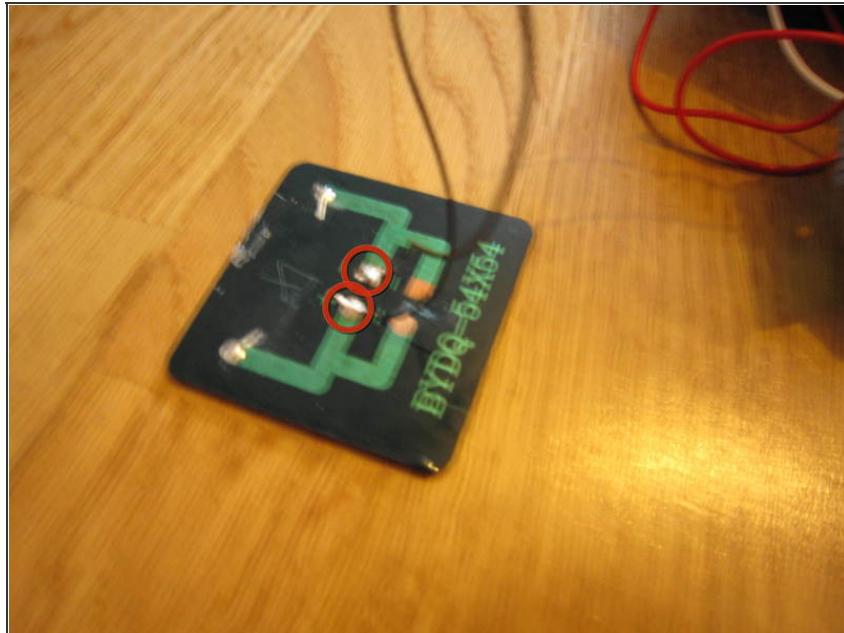

- Then open the camp lamp and connect the power line on the switch and other power line in the wire that is connected to the camp lamp's leds

## Step 3

- Then expand solar panel wire

## Step 4

- Then connect the wires on the solar panel

## Step 5

- Then hot glue everything together
